Stephen,

Can you send in more specific spots you want to sample at where ownership info. is lacking? I was not clear from the email from Jeff.

Subject: San Jacinto: Ownership and access agreements for RI locations

Barbara,

- 1) Ownership maps have been uploaded to the FTP -> Maps -> ownership_maps. They are sorted by perimeters, fingerprint locations, and reference areas.
- 2) From the ownership maps, there are several missing ownership information for certain areas (see Jeff's email below). What is your recommendation for those areas (do we need an access agreement for those areas)? I'll also cc Bob and Snehal (from Harris County) to see if they can assist, in case they have additional ownership info in addition to GIS.
- 3) When completed, upload the legal access agreement/s to the FTP or feel free to send it to me and Jeff and we'll get it on the FTP for the RI team, thanks.

Ownership

Jeff Danielson

to: Stephen Tzhone

04/20/2009 11:49 AM

Stephen,

On Friday you ask me to give you a list of the locations that we do not have ownership information.

What we show based on the Harris County Appraisal District parcels is that all 3 reference points and all but 1 of the fingerprint stations fall outside of any parcel information. Station 11197 is the only one that does fall within a parcel.

The Cedar Bayou reference point falls between Harris County and Chambers County. We have parcels for Harris County but not for Chambers. We've done a search for any data Chambers County may have and found nothing available online. You can do a search of their parcel data but you need an owner name or street address to do the search and we have neither.

Of the VSP points, 44 of the 112 fall outside of a parcel. The rest fall within a parcel and we would be able to obtain ownership data.

Jeff
